

# ESI Cloud Business Phone System (PBX)

ESI Cloud PBX offers the most user-friendly cloud-based phone system available. Advanced features that your business will actually use; it's that simple! Plus, with ESI-designed phones your communication solution is the most integrated solution available, delivering a real-time view of communications across all devices anywhere, anytime.

## Why businesses choose ESI Cloud PBX

- **True integration** — Only ESI Intelitouch™ offers true, seamless integration between the desk phone and the communications system.
- **Intuitive and customizable** — Easily personalize call schedules, set routing rules, and change greetings from anywhere just as easily as you'd transfer a call.
- **Mobility** — Never miss another call with ESI Ditto™ application for iOS® and Android™.
- **One-touch simple** — Intelligent integration means that you can personalize your phones, record calls, and more at the touch of a button or a click of a mouse.
- **Local support** — Local, expert agent and reseller partners are available to provide personal support.

## Key features

- **Web-based administration** — View your voice mail, call history, contacts, and your colleagues' availability as you manage your own — simply and at your fingertips — with your web-based dashboard.
- **ESI Ditto mobile application** — Sync your mobile device to your office phone and never miss another important call. Use Wi-Fi and mobile data instead of cellular minutes.
- **Easy phone programming** — Quickly program and personalize your ESI phone from the dashboard and forget the complicated “star codes.”
- **Presence management** — View co-worker availability in the color-coded Contact list.
- **Visual voice mail** — View your messages in your dashboard to more easily manage your calls.
- **Click-to-call** — Click any number from your dashboard to call instantly.
- **Visual contact directory** — View and manage your contacts and easily import from Google™ Contacts, Microsoft® Outlook®, and Apple® vCard.
- **Automated help** — Access an automated help menu to quickly get the information you need with one touch.
- **Multiple-device support** — Use up to three devices per extension so that your important calls reach you, no matter where in your workplace you may be at the moment.
